Feature Films and Community Activities that Inspire a Free Society

We help people understand and appreciate liberty

JUST THE TRUTH: A FILMED STAGE PLAY

A movie to entertain, enlighten, and inspire. We completed our first feature movie, *Just the Truth!* This “hybrid” of stage and film was produced from the play that successfully premiered in live theatre and was embellished with movie elements, such as shooting on a soundstage, which immerses the viewer in the scenes with the characters.

Winning awards! *Just the Truth* is an official selection in six film festivals and the winner of three awards (so far!).

COMING SOON:

DVD sales and online streaming will be available in spring/summer 2023.

Freedom of the press at stake. This absorbing political thriller and murder mystery examines how our cherished values of truth and free expression are under attack by overreaching political powers and how one courageous newswoman is determined to rescue our way of life.

Private screenings a success. Audiences cheered at private screenings of *Just the Truth*, held at the Basile Westfield Playhouse and, in conjunction with the Bastiat

Society of Indianapolis, at the Liberty Fund in Carmel, Indiana.

Films with thematic depth. Winged Victory Foundation is on a path to offer high-impact feature films on a national and international scale, films with thematic depth to shine a spotlight on the ideas that form a free society and how to protect them.

Local talent shines. We're also proud to display our local talent to a much wider audience.

Free educational materials. We offer a synopsis, character sketches, and study questions highlighting the ideas and issues raised in the film, along with reading programs for the novel *Just the Truth* and grants to theatres that want to stage a live production of the play script. Our materials are available for free download on our website to help students and communities understand how fragile our freedoms are, how we could lose them, and how to protect them.

Couldn't be more timely! With shocking efforts underway in real life to suppress investigative journalism and silence political dissent, this film is a must-see!

ENGAGING THE COMMUNITY

Independence Day and the Declaration of Independence

For our second year in a row, we hosted our unique Be a Signer booth at our city's Independence Day celebration, CarmelFest. Using words closely matching the actual text, we invited festival goers to sign our poster of the Declaration of Independence. We filled poster after poster with hundreds of signatures. Be a Signer reminds everyone of our cherished freedoms, how hard-fought they were to attain, and the true meaning of Independence Day.

Our booth was constantly bustling with liberty-loving visitors stopping by to add their signature and take a picture with our own Thomas Jefferson. Flocks of children had a chance to reflect on America's founding document, as well as the free pocket Constitution they received, along with our signature bookmarks with powerful quotes on liberty from classical thinkers. The kids also picked their favorite from our variety of liberty tattoos, which proved quite popular with them—and the adults!

Coming Soon: Constitution Day and Week

Parents and teachers are calling for programs to teach civics to students so that they understand and value liberty and the American system of government, and we are responding to that need. Winged Victory Foundation is developing a one-act skit about the U.S. Constitution accompanied with a hand-clapping song about individuality (*It's*

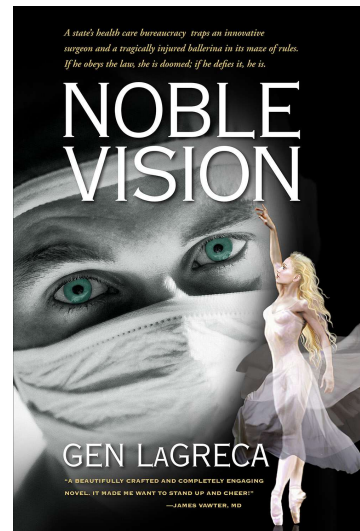

All About Me!). Children will have the leading roles in this play that is geared to enrich their understanding of the Constitution, its historic significance, and its relevance to today. Stay tuned for our Constitution Week activities and performances.

OUR NEXT FILM PROJECT

Noble Vision

The foundation's second film project goes beyond a filmed stage play to bring you a fully cinematic feature movie. *Noble Vision* delves deeply into the controversies in our current healthcare system and the dangers it poses to our personal liberty. With the pandemic bringing explosive conflicts between government mandates and individual choice to the forefront—and with the federal government's major healthcare program predicted to go bankrupt in just ten years—*Noble Vision* could not be more timely.

This romantic medical thriller is adapted from the novel *Noble Vision*, winner of five literary awards and an Amazon best-seller.

Praise for the Novel

"The defects of government-controlled medicine are dramatized effectively in this page-turning story of the love of a brilliant physician for a beautiful ballerina who becomes his patient." - MILTON FRIEDMAN, Nobel laureate

"Salutary tale of what can happen to medical breakthroughs if Big Government claws even deeper into our healthcare system!" - STEVE FORBES, Chairman, Forbes Media

"A gripping story superimposed on today's threats to quality medical care. Admittedly a novel, it is filled with truths of today." - EDWARD ANNIS, MD, Past President, American Medical Association
